## ***INDEPENDENT AUDITOR'S REPORT***

December 9, 2014

Members of the Town Council  
Town of Bar Harbor  
Bar Harbor, ME 04609

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of Bar Harbor, Maine as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Town of Bar Harbor, Maine as of June 30, 2014, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

### ***Other-Matters***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 13 and 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance

with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Bar Harbor, Maine's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Respectfully Submitted,

**James W. Wadman, CPA**

**Management's Discussion and Analysis**  
**For the Fiscal Year Ended June 30, 2014**

Management of the Town of Bar Harbor, Maine provides this *Management's Discussion and Analysis* of the Town's financial performance for readers of the Town's financial statements. This narrative overview and analysis of the financial activities of the Town is for the fiscal year ended June 30, 2014. We encourage readers to consider this information in conjunction with the financial statements and accompanying notes that follow.

The financial statements herein include all of the activities of the Town of Bar Harbor, Maine (the Town) using the integrated approach as prescribed by Government Accounting Standards Board (GASB) Statement No. 34.

**FINANCIAL HIGHLIGHTS – PRIMARY GOVERNMENT**

**Government-wide Highlights:**

*Net Position* – The assets of the Town exceeded its liabilities at fiscal year ending June 30, 2014 by \$34,041,382 (presented as “net position”). Of this amount, \$11,017,404 was reported as “unrestricted net position”. Unrestricted net position represents the amount available to be used to meet the Town's ongoing obligations to citizens and creditors.

*Changes in Net Position* – The Town's total net position increased by \$1,033,753 (a 3.1% increase) for the fiscal year ended June 30, 2014. Net position of governmental activities decreased by \$21,797 (a .1% decrease), while net position of business-type activities showed an increase of \$1,055,550 (a 9.1% increase).

**Fund Highlights:**

*Governmental Funds – Fund Balances* – As of the close of the fiscal year ended June 30, 2014, the Town's governmental funds reported a combined ending fund balance of \$7,870,230 with \$623,932 being general unassigned fund balance. This unassigned fund balance represents approximately 3.8% of the total general fund expenditures for the year.

**Long-term Debt:**

The Town's total long-term debt obligations decreased by \$376,162 (4.9%) during the current fiscal year. Existing debt obligations were retired according to schedule. The Town approved 2 general obligation securities at the 6/3/14 annual town meeting. The first was in the amount of \$2,200,000 for the renovations to the town office and the second was in the amount of \$242,000 for the Downtown Wayfinding Signage Plan. Both are authorized but unissued at 6/30/14.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains additional required supplementary information (budgetary comparison) and other supplementary information. These components are described below:

**Government-wide Financial Statements**

The Government-wide financial statements present the financial picture of the Town from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities and business-type activities separately. These statements include all assets of the Town (including infrastructure) as well as all liabilities (including long-term debt). Additionally, certain elimination entries have occurred as prescribed by the statement in regards to inter-fund activity, payables and receivables.

The government-wide financial statements can be found on pages 14-15 of this report.

**Fund Financial Statements**

The fund financial statements include statements for each of the three categories of activities – governmental, business-type and fiduciary. The governmental activities are prepared using the current financial resources measurement focus and the modified accrual basis of accounting. The business-type activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are used to account for resources held for the benefit of parties outside the Town government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these

funds are not available to support the Town’s own programs. Reconciliation of the fund financial statements to the Government-wide financial statements is provided to explain the differences created by the integrated approach.

The basic governmental fund financial statements can be found on pages 16-19 of this report.  
 The basic proprietary fund financial statements can be found on pages 20-22 of this report.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements.

The notes to the financial statements can be found on pages 23-42 of this report.

**Required Supplementary Information**

This section includes a budgetary comparison schedule, which includes a reconciliation between the statutory fund balance for budgetary purposes and the fund balance for the general fund as presented in the governmental fund financial statements (if necessary). Required supplementary information can be found on page 43 of this report.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

**Net Position**

60.2% of the Town’s net position reflects its net investment in capital assets such as land, buildings, equipment and infrastructure (roads, bridges and other immovable assets) less any related debt used to acquire those assets that are still outstanding. The Town uses these assets to provide services to citizens; consequently, these assets are not available for future spending. Although, the Town’s investment in its capital assets is reported net of accumulated depreciation and net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

## Revenues By Source - Governmental and Business-Type

## Expenditures by Source - Governmental and Business-Type

## **FINANCIAL ANALYSIS OF THE TOWN'S INDIVIDUAL FUNDS**

### **Governmental Funds**

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the fiscal year, the Town's governmental funds reported ending fund balances of \$7,870,230, a decrease of \$3,128,498 in comparison with the prior year. Approximately 7.9 percent of this total amount constitutes unassigned fund balance. The remainder is reserved to indicate that it is not available for spending because it has been committed to liquidate contracts and commitments of the prior fiscal year or for a variety of other purposes.

Variances between actual General Fund revenues and expenditures and the final amended budget included the following:

- \$59,719 positive variance in property taxes due to the adjustment for unearned property tax revenue.
- \$50,750 positive variance in auto excise due to newer/higher vehicles being registered.
- \$(55,398) negative variance in municipal revenue sharing due to proportionally shared state cuts to this program.
- \$(61,838) negative variance in ambulance revenues, net of write offs. This was due to approximately 10% reduction in billable runs and a 48% increase in bad debts write offs not budgeted for.
- \$24,149 positive variance in building permits revenue due to a new and unbudgeted hotel.
- \$19,195 negative variance in sale of recyclables revenue due to a reduction in cardboard and metals prices in the market.
- \$13,424 positive variance in the assessing department expenditures. The staff changed from outsourcing personal property updates to performing that in house.
- \$16,667 positive variance in the 27<sup>th</sup> pay period expenditure due to a reduction in high wage personnel in the wage base accrual that were not budgeted for.

### **Proprietary Funds**

The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

## **CAPITAL ASSET ADMINISTRATION**

### **Capital Assets**

The Town's investment in capital assets for its governmental and business-like activities amounts to \$71,413,480, net of accumulated depreciation of \$31,316,320, leaving a net book value of \$40,097,160. Current year additions included Capital Improvements, Water and Sewer additions.

**REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the Town's finances for all citizens, taxpayers, investors and creditors. This financial report seeks to demonstrate the Town's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: Town of Bar Harbor, 93 Cottage Street, Bar Harbor, ME 04609.

**TOWN OF BAR HARBOR**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**JUNE 30, 2014**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Town of Bar Harbor have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

**A. Financial Reporting Entity**

The Town of Bar Harbor operates under an elected Town Council and Town Manager form of government. The Town's Elementary School Department operates under an elected School Committee. The School Department is administered by AOS #91. The Town's major operations include public works, water, wastewater, harbor facilities, public safety, fire protection, education, and general administrative services.

For financial reporting purposes the Town includes all organizations, functions and activities in its financial statements for which it exercises oversight responsibility. Oversight responsibility as defined by the Governmental Accounting Standards Board (GASB) includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters.

**B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Town. Fiduciary activities, whose resources are not available to finance the Town's programs, are excluded from the government-wide statements. The material effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and various intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Functional expenses may also include an element of indirect cost, designed to recover administrative (overhead) costs. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Funds are classified into the following categories: governmental, proprietary and fiduciary.

**TOWN OF BAR HARBOR**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**JUNE 30, 2014**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the *total economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and trust fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met. Agency funds, reporting only assets and liabilities, have no measurement focus but use the accrual basis of accounting.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, including interest on long-term debt, as well as expenditure related to compensated absences and claims and judgments are recorded only when payment is due.

Property taxes, sales taxes, interdepartmental charges, and intergovernmental revenues are all considered to be susceptible to accrual. Special assessments are recorded as revenues in the year the assessments become current. Annual installments not yet due are reflected as special assessment receivables and unearned revenues. Other revenue items are considered to be measurable and available only when cash is received by the Town.

The Town reports the following major governmental funds:

The General Fund is used to account for all or most of the Town's general activities, including the school, the revenues and expenditures of the Cruise Ship fund, the collection and disbursement of earmarked monies (special revenue funds). The General Fund is used to account for all activities of the general government not accounted in some other fund.

The CIP funds account for all the Town and School Departments major capital projects and the servicing of general long-term debt (debt service fund).

The Town reports the following major proprietary funds:

The wastewater fund accounts for the activities of the wastewater operations. The Town operates the wastewater collection system and related administrative costs.

The water fund accounts for the activities of the water operations. The Town operates the water collection system and related administrative costs.

Additionally, the Town reports the following fund types:

Permanent funds account for monies held in trust by the Town, the investment earnings from which may only be used for the operation of the program.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***D. Assets, Liabilities, and Net Position or Fund Equity***

***1. Deposits and Investments***

Governmental Accounting Standards Statement No. 40 requires the disclosure of interest rate risk, credit risk, and custodial risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Town invests in short term repurchase obligations and short term investments held by a local banking institution. As a means of limiting its exposure credit risk, the Town limits its investments to those authorized by Maine State Statutes, which authorize the Town to make deposits/investments in insured commercial banks, insured credit unions, and direct debt securities of the United States Government unless such an investment is expressly prohibited by law. For an investment, custodial risk is the risk that in the event of the failure of the counter party the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

As a means of limiting its exposure to custodial risk, the Town requires that, at the time funds are invested, collateral for repurchase agreements be held in the Town's name by a custodial agent for the term of the agreement and investments in obligations of the United States or its agencies be held by the Federal Reserve.

***2. Receivables and Payables***

Transactions between funds that result in outstanding balances are reported as due to/from other funds.

Property taxes receivable not expected to be collected within 60 days from year end are classified as unearned revenue. At June 30, \$630,597 has been so classified and reported on the general fund balance sheet.

Annual property taxes were levied on August 13, 2013, on property values assessed on April 1. Taxes were due in two installments without penalty, due on September 30 and March 31, with interest at 7.0% beginning October 1 and April 1. A 1% discount was available on the second half taxes if paid at the due date of the first half taxes. Tax liens are placed on real property within 12 months following the tax commitment date if taxes remain delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the liens if the lien amount and associated costs remain unpaid.

***3. Inventories***

Inventories are valued at cost. The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased.

***4. Capital Assets***

Capital assets, which property, plant, equipment, and infrastructure (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

**TOWN OF BAR HARBOR**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**JUNE 30, 2014**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**D. Assets, Liabilities and Equity (Continued)**

**4. Capital Assets (Continued)**

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the asset constructed. Property, plant, and equipment are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	20-40
Infrastructure	18-77
Equipment	3-20

**5. Compensated Absences**

In the fund financial statements, vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Vested or accumulated vacation leave, holiday leave and comp time in the government-wide financial statements is recorded as an expense and liability of the fund as the benefits accrue to employees. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulated right to receive sick pay benefits.

**6. Long-term Obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type financial statements. In the fund financial statements, governmental fund types recognize the face amount of debt issued as other financing sources.

Under State Law, no municipality can incur debt, which would cause its total outstanding debt, exclusive of debt incurred for school, storm or sanitary sewer, energy facilities, or municipal airports, to exceed 7.50% of its last full state valuation. A municipality may incur debt for schools not exceeding 10%, storm or sanitary sewers 7.50%, and municipal airports, water districts and special purpose districts 3% of its last full state valuation. In no event can the total debt exceed 15% of its last full valuation. Full state valuation is the valuation of taxable property as certified by the State Tax Assessor, adjusted to 100%.

At June 30, the Town of Bar Harbor is in compliance with the above requirements.

**7. Fund Balances/Net Position**

Fund Balances

In accordance with Government Accounting Standards Board 54, fund balance reporting and governmental fund type definitions, the Town classifies governmental fund balances as follows:

*Non-spendable* – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.

*Restricted* – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

*Committed* – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through town meeting voting and does not lapse at year-end.

*Assigned* – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balances may be assigned by the Town Council.

*Unassigned* – includes positive fund balance within the general fund which has not been classified within the above mentioned categories and negative fund balance in other governmental funds.

The Town considers restricted, committed, assigned, and unassigned amounts to be spent in that order when expenditures for which any of those amounts are available.

The Town's fund balance policy requires at least 10% of the Town's previous year's total audited general fund revenues to be assigned as designated for working capital.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**D. Assets, Liabilities and Equity (Continued)**

**7. Fund Balances/Net Position (Continued)**

Net Position

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Net position are required to be classified into three components – net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

*Net Investment in Capital Assets* – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets.

*Restricted* – This component of net position consists of restrictions placed on net position use through external constraints imposed by creditors (such as debt covenants), grantors, contributors, or law or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation.

*Unrestricted* – This component consists of net position that does not meet the definition of “restricted” or “net investment in capital assets.”

**NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**A. Budgetary Information**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for the government’s governmental funds. However, the Town’s School Department does not budget for the revenues and expenditures associated with the employer’s teacher retirement contribution made by the State of Maine on behalf of the town to the Maine Public Employees Retirement System (MPERS). School grant funds and the school lunch fund do not have legally adopted budgets. All annual appropriations lapse at fiscal year-end to the extent that they have not been encumbered.

All agencies of the government submit requests for appropriations to the government’s manager commencing 6 weeks before the manager is required to submit the budget to the government’s council. The manager compiles the data and submits the total budget to the council on or before the third Tuesday in January each year. The council holds public hearings, adopts the budget, and recommends it to the warrant committee on or before February 22. No later than seven days following adoption, the manager submits the budget to the warrant committee, which reviews the budget and submits its recommendation to the council at least four weeks prior to the Town Meeting. The council submits the budget to the Town Meeting along with the recommendation of the warrant committee. The Town Meeting adopts the final budget.

**JUNE 30, 2014**

**NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)**

**A. Budgetary Information (Continued)**

The appropriated budget is prepared by fund, function and department. The manager and department heads may make transfers of appropriations within cost centers, but may not exceed the total cost center appropriation. The council may transfer appropriations between cost centers to the extent of any unencumbered appropriation balance.

Reserve funds, once established by the Town Meeting, may be expended with approval of the council for the purpose for which the reserve was established.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as reservations of fund balance and do not constitute expenditures or liabilities because the commitments are carried forward to supplement appropriations of the subsequent year.

**NOTE 3 - DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS**

**A. Deposits and Investments**

**Deposits**

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The Town's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State Statute 5706 require banks to give bond or to pledge government securities (types of which are specifically identified in the Statutes) to the Town in the amount of the Town's deposits. The Statutes allow pledged securities to be reduced by the amount of Federal Deposit Insurance Corporation (FDIC).

One or more of the financial institutions holding the Town's cash accounts are participating in the FDIC Transaction Account Guarantee Program. Under the program, as of January 1, 2013, all interest bearing and non-interest bearing accounts, are aggregated and are insured up to \$250,000 in total by the FDIC. Any cash deposits or certificates of deposits in excess of the \$250,000 FDIC limits are covered by collateral held in a Federal Reserve pledge account or by an agent for the Town and thus no custodial risk exists.

The Town's investment policy further restricts the investment options delegated to the Town Treasurer. The Town is authorized to invest in only U.S. Treasury bills less than one year, U.S. Treasury notes 1-5 years, certificates of deposit up to \$250,000 per bank with FDIC coverage from only 5 local banks, overnight repurchase agreements or deposit accounts, investment management agreements, local government investment pools, interest bearing checking accounts, or CDARS investment options.

**Deposits (Continued)**

At year-end, the government's carrying amount of deposits was \$9,352,365 and the bank balance was \$9,856,456. The bank balance is categorized according to credit risk as follows:

Category 1 - Insured by Federal depository or credit union insurance.

Category 2 - Collateralized with securities held by the pledging financial institution's trust Department or agent in the Town's name.

Category 3 - Uninsured and uncollateralized.

**NOTES TO THE FINANCIAL STATEMENTS**  
**JUNE 30, 2014**

**NOTE 4 - OTHER INFORMATION**

**A. Contingent Liabilities**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor, cannot be determined at this time, although the government expects such amount, if any to be immaterial.

The government is a defendant in various lawsuits which results from the normal course of its operations. Although the outcome of these lawsuits is not presently determinable, it is the opinion of management that resolution of these matters will not have a material adverse effect on the financial condition of the government.

**B. Permanent Funds**

The principal amount of all Permanent Funds is restricted either by law or by terms of individual bequests in that only income earned may be expended. The government's Permanent Funds at June 30 are detailed as follows:

<u>Purpose</u>	<u>Nonspendable</u>	<u>Assigned</u>
Cemetery Care	5,269	-
Scholarships	6,488	3,292
Total	<u>11,757</u>	<u>3,292</u>

**C. Pension Plans**

**Plan Description**

The Town's employees are covered under the ICMA or Maine Public Employees Retirement System.

The ICMA RC (International City Management Association Retirement Corporation) is a qualified defined contribution plan created in accordance with Internal Revenue Code Section 457. The plan, available to all regular, full-time Town employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency as defined by the Internal Revenue Code provisions.

The plan is administered by an independent company, and the Town remits all compensation deferred to this administrator for investment as requested by the participant employees. All compensation deferred and funded under the plan, all investments purchased and all income attributable thereto are held in trust for the exclusive benefit of participants and their beneficiaries.

The Town participates in the Maine Public Employees Retirement System Consolidated Plan for Participating Districts (Consolidated Plan), and the Maine Public Employees Retirement System's Teacher Plan, both which are cost sharing multiple-employer defined benefit pension plans. The Maine Public Employees Retirement System (System) is a body corporate and politic and an incorporated public instrumentality of the State. Under Title 5 M.R.S.A. the System is the administrator of retirement and disability benefits, annual cost-of-living

adjustments, and death benefits to plan members and beneficiaries. The System issues a financial report that includes the financial statements and required supplementary information for the plans. That report may be obtained by writing to Maine Public Employees Retirement System, PO Box 349, Augusta, Maine 04332-0349 or by calling 1-800-451-9800.

**Funding Policy**

Under the ICMA plan, covered employees contribute a percentage of their salary to the plan with the Town contributing 6.5% to 10.0%. The Town's costs for the fiscal years ended June 30, 2012, 2013 and 2014 were \$100,842, \$81,728 and \$77,885 respectively. The Town also contributed \$30,097 on behalf of the former Town Manager as part of a severance agreement.

Maine Public Employees Retirement System Consolidated Plan members are required to contribute 6.5% to 7.5% of their annual covered salary and the Town is required to contribute an actuarially determined rate. The FY 14 rate is 6.5% and 6.9% of annual covered payroll, plus a monthly contribution of \$967 and \$478 to fund the IUUAL, or the Initial Unpooled Unfunded Actuarial Liability. The IUUAL liability stands at \$32,342 as of July 1, 2012. The IUUAL is zero as of 6/30/14. Funding for subsequent fiscal year 2015 will be at 7.8% and 7.2% respectively. The contribution requirements of plan members and the Town are established by the Maine Public Employees Retirement System Board of Trustees. The Town's contributions to the Consolidated Plan for all three funds for the years ended June 30, 2012, 2013 and 2014, were \$104,296, \$128,619 and \$143,403 respectively, which were paid in full each year.

Consolidated Plan members are required to contribute 6.5% of their annual covered salary and the School Department is required to contribute an actuarially determined rate. The FY 14 rate is 6.5% of annual covered payroll, plus a monthly charge for all covered employees of \$58. The contribution requirements of plan members and the School Department are established by the Maine Public Employees Retirement System Board of Trustees. The School Department's contributions to the Consolidated Plan for the years ended June 30, 2012, 2013 and 2014 were \$5,563, \$9,347 and \$10,975 respectively, which were paid in full each year.

Teachers and other qualified employees are required to contribute 7.65% of their compensation to the Teacher Plan. The State Department of Education is required to contribute a portion of the employer contribution, which amounted to 13.03% of the annual covered salary for fiscal year 2014. The State's cost for 2014 was approximately \$382,240. The School Unit is required to pay 2.65% of non-federally funded teachers' compensation and 16.15% for federally funded teachers' compensation. This cost amounted to \$77,739 and \$11,985 respectively for 2014. The federal portion is chargeable to the applicable grants.

**Social Security** – The Town has a section 218 agreement to provide full Social Security coverage for its full time employees and at the Town's discretion may exclude part time public safety employees. This agreement was enacted July 1, 1965.

**D. Bar Harbor Water Company Pension Plan**

Prior to its acquisition by the Town, the employees of the Bar Harbor Water Company were covered by the Bar Harbor Water Company Retirement Plan for Employees, a defined benefit pension plan. Contributions were actuarially determined and made by the employer. Employees did not make contributions.

**NOTE 4 - OTHER INFORMATION (Continued)**

***D. Bar Harbor Water Company Pension Plan (Continued)***

The plan was amended by the Town Council to discontinue the accrual of any additional benefits after December 31, 2001, and effective January 1, 2002, the Town of Bar Harbor became the successor sponsor. During the fiscal year 2014 the Town sold the Water Department Building and used a portion of the proceeds to fully fund the retirement plan and discontinue the plan under the Town. Employees were given the option to roll over their funds or take a lump sum payout. The final distribution of the plan occurred on 12/9/13.

***E. Risk Management***

The town is exposed to various risks of loss related to torts; theft of, damage and destruction of assets; errors and omissions; and natural disasters for which the town participated in public entity risk pools sponsored by the Maine Municipal Association (MMA) for workers' compensation, and property damage.

Workers' Compensation - MMA's workers' compensation self-insured trust retains \$1,000,000 of risk and purchases excess insurance for claims which exceed \$1,000,000 up to a maximum coverage of \$2,000,000. All participants are jointly and severally liable; therefore, if collected claims exceed collective contributions the trust has a right to assess additional contributions to its members.

Property and Casualty - MMA's Self-Funded Risk Management Pool (Pool) was created to establish and administer a risk management service and to bring about prevention or lessening of casualty and property losses to member towns. The town pays an annual premium to the Pool for various coverage and services.

Property Coverage: Members' deductibles vary by type of coverage. The Pool retains the difference up to \$300,000 per occurrence. The first level of reinsurance provides a limit of \$700,000 on a per occurrence basis. Separate contracts are maintained to provide an additional \$500,000,000 per occurrence, bringing the total limit to \$501,000,000 for the Pool. Varying sublimits apply for forest fire suppression, earthquake and flood, including property located in Special Flood Hazard Areas.

Liability Coverages: The Pool retains the first \$300,000 per occurrence. Separate reinsurance contracts are maintained to provide up to an additional \$700,000 per occurrence, for a total of \$2,000,000 per occurrence for claims brought outside the Maine Tort Claims Act. The Pool retains the first \$300,000 per occurrence for Maine Tort Claims Act claims with reinsurance of \$100,000 per occurrence, for a total of \$400,000; the current statutory limit. The primary reinsurer is limited to a maximum limit of liability of \$25,000,000 ultimate net loss for any one occurrence or claim made.

Public Officials and Employment Practices Liability Coverages: Member deductibles range upwards from \$1,000. The Pool retains the difference to a maximum of \$300,000 per occurrence. Separate reinsurance contracts provide up to \$2,000,000 per occurrence, \$4,000,000 annual aggregate for each member, subject to \$10,000,000 annual aggregate for the Pool.

Based on the coverage provided by the pools described above, the town is not aware of any material actual or potential claim liabilities, which should be recorded at June 30, 2014.

***F. Other Postemployment Benefits***

The Governmental Accounting Standards Board (GASB) promulgated its Statement 45 which addressed the reporting and disclosure requirements for other post employment benefits (OPEB). GASB Statement 45,

**TOWN OF BAR HARBOR**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**JUNE 30, 2014**

**NOTE 4 - OTHER INFORMATION (Continued)**

**F. Other Postemployment Benefits (Continued)**

*Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, was implemented, as required, by the Town of Bar Harbor, Maine for the year ended June 30, 2009. Under this pronouncement, it requires that the long-term cost of retirement health care and obligations for other postemployment benefits be determined on an actuarial basis and reported similar to pension plans.

The Town is a member of the Maine Municipal Employees Health Trust. The Trust is an agent multiple employer Voluntary Employee's Beneficiary Association. The Town is an individually rated member within the Association. The Trust issues a publicly available financial report. That report may be obtained by writing to the Maine Municipal Association at 60 Community Drive, Augusta, ME 04332. The Trust contracted with an outside consultant to assist in the determination and valuation of the Town's OPEB liability under GASB Statement 45. The most recent OPEB liability actuarial valuation was completed by the consultants in January 2014.

**Plan Descriptions** – In addition to providing pension benefits, the Town provides health care benefits for certain retired employees. Eligibility to receive health care benefits follows the same requirements as MainePERS. Eligible retirees are required to pay 100% of the health insurance premiums to receive health benefit coverage.

**Funding Policy and Annual OPEB Cost** – GASB Statement 45 does not mandate the prefunding of postemployment benefits liability. The Town currently plans to fund these benefits on a pay-as-you-go basis primarily from the general fund. No assets have been segregated and restricted to provide postemployment benefits. The annual required contribution (ARC), an actuarial determined rate, represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize unfunded actuarial liabilities over a period not to exceed thirty years.

The following table represents the OPEB costs for the years ending June 30, 2014, 2013 and 2012 and the annual required contributions:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Normal Cost	\$ 18,158	\$ 19,722	\$ 19,722
Amortization of unfunded	\$ 24,981	\$ 32,400	\$ 32,400
Adjustment to ARC	\$ (7,913)	\$ (6,495)	\$ (4,160)
Interest	<u>\$ 6,327</u>	<u>\$ 5,524</u>	<u>\$ 3,909</u>
Annual required contribution	\$ 41,553	\$ 51,151	\$ 51,871

**Net OPEB Obligation** – The Town's net OPEB obligation was calculated as follows:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
OPEB liability, July 1	\$ 136,827	\$ 112,307	\$ 71,929
Annual required contribution	\$ 41,553	\$ 51,151	\$ 51,871
Less: Actual member contributions	<u>\$ (18,522)</u>	<u>\$ (26,631)</u>	<u>\$ (11,493)</u>
OPEB liability, June 30	\$ 159,858	\$ 136,827	\$ 112,307

**TOWN OF BAR HARBOR**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**JUNE 30, 2014**

**NOTE 4 - OTHER INFORMATION (Continued)**

**F. Other Postemployment Benefits (Continued)**

**Funding Status and Funding Progress** – The Town’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the years ending June 30, 2014, 2013 and 2012 was as follows:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Annual Required Contribution	\$ 41,553	\$ 51,151	\$ 51,871
Actual Member Contributions	\$ 18,522	\$ 26,631	\$ 11,495
Percent contributed	44.57%	52.06%	22.16%
Actuarial accrued liability	\$ 449,253	\$ 582,677	\$ 582,677
Plan Assets	\$ -	\$ -	\$ -
Unfunded actuarial accrued liability	\$ 449,253	\$ 582,677	\$ 582,677
Covered payroll	\$ 2,821,170	\$ 2,739,000	\$ 2,717,300
Unfunded actuarial accrued liability as a percentage of covered payroll	15.92%	21.27%	21.44%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

**Actuarial Methods and Assumptions** – Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the Town and plan members at that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of plan assets. Significant methods and assumptions were as follows:

Actuarial valuation date	1/1/14
Actuarial cost method	Projected Unit
Amortization method	Level dollar Open
Remaining amortization period	30 years
Actuarial assumptions:	
Investment rate of return	4.0%
Projected salary increases	3.0%
Healthcare inflation rate	4.6%

**Exhibit D**

Net change in fund balances - total governmental funds (3,128,498)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets:

Capital asset purchases capitalized	3,780,335
Gain/(Loss) on Disposal of Assets	(35,797)
Depreciation expense	(977,724)
	<u>2,766,814</u>

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds:

Unearned Revenues	22,062
Unearned Taxes	(55,719)
	<u>(33,657)</u>

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position:

Capital lease obligation principal payments	13,606
General obligation bond principal payments	362,556
	<u>376,162</u>

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Accrued compensated absences	(2,618)
	<u>(2,618)</u>

Change in net position of governmental activities (21,797)

Members of the Town Council  
Town of Bar Harbor  
Bar Harbor, ME 04609

We have audited the financial statements of the Bar Harbor School Department for the year ended June 30, 2014.

In connection with our audit, we make the following statements of assurances and determinations:

1. The audit has been conducted in accordance with applicable State and Federal laws relating to financial and compliance audits.
2. Budgetary controls are in place.
3. The corrected annual financial report submitted to the Department of Education and Cultural Services is materially correct.
4. The Bar Harbor School Department has complied with the applicable provisions of the Maine School Finance Act.
5. The Bar Harbor School Department has complied with the transfer limitations between budget cost centers.
6. The Bar Harbor School Department has complied with the statutory budget content requirements.
7. The Bar Harbor School Department has not exceeded its authority to expend funds as provided with the total budget summary article.

Respectfully submitted,

**James W. Wadman, CPA**
