a. Review discussion from November 10 meeting.

The commission provided a summary of the previous meeting with a presentation from members of MDIBiolab to the commission members that were not present at the meeting.

a. Discuss contents, format, and scope of community educational outreach effort.

The commission discussed providing a list of products people may have in their homes that contain PFAS. They also discussed wanting to create outreach material, such as a brochure, to provide information about PFAS to the public. Ms. Davis volunteered to look into existing outreach and educational material that exists for the commission to review at their next meeting. Mr. Seavitt committed to reaching out to MDIBiolab to see if they have any educational materials about PFAS prepared or see if they would assist in providing local PFAS information.

b. Hear reports on ongoing projects

Ms. Bondy provided an update on the Northeast Creek work, including the non-point source pollution grant work.

VI. Other Business

Mr. Smith inquired about the treatment of wastewater sludge, as it is a known source of PFAS.

VII. Member Comments/Suggestions for Future Agenda

The commission agreed to discuss outreach materials at the next meeting

VIII. Adjournment

Mr. Taylor moved to adjourn the meeting at 6:33 PM. Mr. Jordan seconded.
