Presentation from Tom Boudreau on building monitoring systems

### Reflections from last week's in-depth discussion

Important question from Town Manager James: what would we like to see the town doing that it isn't already doing? In other words, what is the role the CETF should play now that we have completed the climate action plans?

Our task now: coming up with a list of objectives and presenting amended bylaws to the Town Council.

Thank you to Val for beginning to amend our bylaws [here](#) and other members for adding comments.

For bylaw inspiration, [Sustainability Committees Across the State](#) have various sizes, reporting requirements, forms of staff support, and duties and responsibilities.
